Michael Triantafyllou  
MIT Sea Grant Director

RE: Support letter for Manna Fish Farms, Inc.

Dear Dr. Triantafyllou,

I am writing in support of Manna Fish Farms, Inc. proposal entitled: "Offshore Testing of an Economical Submersible Cage System for Aquaculture."

Manna Farms has one of only two or three applications to establish finfish farms in the US EEZ. Anything we can do to encourage the US to develop an offshore aquaculture industry would be good for the nation economically and environmentally.

I urge you to support their proposal.

Sincerely

Jerry R. Schubel  
President/CEO
